• Frontend Developer •

ABOUT ME

An aspiring Frontend Developer with 2 years of hands-on experience in creating effective and attractive user interfaces. I specialise in HTML5, CSS3 and JavaScript and have experience with ReactJS. Confidently use version control tools such as Git and have experience integrating with RESTful APIs. Distinguished by my attention to detail, commitment to continuous learning, and ability to work in a team. Looking for opportunities to apply my skills in a dynamic and innovative environment.
